

## **Volunteers in Proposed Community Plus and Community Libraries**

Oxfordshire County Council is consulting on a proposal that each of Oxfordshire's 43 libraries continue to receive support in the form of free access to a suitable building, to book stock, to the library stock management system, to the expertise of county council employed library staff and to operate to the library service's standards and policies.

Under the proposal, the Library Service will retain responsibility for the operational and professional management of all libraries. Communities are being asked to step forward and support their library by becoming volunteers.
